Profile

Coffee Faith is a Drone / Experimental project of Rio Nurkholis Syaifuddin from Yogyakarta, Indonesia. The name inspired by coffee taste. In Indonesian language, it is like a word play it means a bitter taste of coffee (Kopi Pait).

Start in 30th November 2014 after his band member does't show up at the gigs, so he has to played solo.

Using DIY synth/drone synth, and some guitar pedal Coffee Faith makes a wide range of drone, dark ambient and atmospheric composition. Influenced by Sunn O))), Earth and taking theme from Religions book, story of an ancient gods and ancient culture and also philosophy and psychology. While absorbing and acknowledging these influences, it is important to him to find and evolve his own sound.

Coffee Faith is an active member and part of Jogja Noise Bombing. Collective movement in Yogyakarta concentrated in Noise/experimental music. Coffee Faith also working together with various local and international noise artist.

Coffee Faith got involved in the noise show mostly in Yogyakarta. In 2016 Coffee Faith arranged mini tour in some city of Java with Tengger, a Noise/Psychedelic Band from Korea/Japan. And in 2017 Coffee Faith has done the Europe and Southeast Asia Tour. This project actively release the recording material. Both in digital release or physical release (CD-R and Cassette Tape).
